• SGC-120

- Inaugurated in 2011
- Load moment 120.000Tm
- Capacity 3.200T
- Outer ring \varnothing 38,4m
- 96 wheels
- 3.600T counterweight
- Main boom up to 130m
- Heavy-duty jib up to 100m

• SGC-140

- Inaugurated in 2017
- Load moment 140.000Tm
- Capacity 3.200T
- Outer ring ø 38,4m
- 96 wheels
- 4.200T counterweight
- Main boom up to 130m
- Heavy-duty jib up to 100m

• SGC-250

- Inaugurated in 2018
- Load moment 250.000Tm
- Capacity 5.000T
- Outer ring ø 48,5m
- 128 wheels
- 5.200T counterweight
- Main boom up to 160m
- Heavy-duty jib up to 100m
- Relocation between lifting positions

• SGC-90

- Inaugurated in 2020
- Load moment 99.000Tm
- Capacity 1.650T
- Center ring ø 35m
- 32 wheels
- 3.000T counterweight
- Main boom up to 130m
- Runner 27,5m
- Environmentally friendly, electric powered
